

EdVestors Presents

SCHOOL ON THE MOVE Prize

Each fall, EdVestors hosts the Thomas W. Payzant School on the Move Prize. We honor the bright spots in Boston Public Schools and celebrate the hard work of teachers and school leaders who have significantly improved outcomes for their students. We share the stories of how schools improve to help more schools make significant progress. The prestigious School on the Move Prize comes with a \$100,000 award from EdVestors, public recognition, and the opportunity for the winning school to document and share replicable strategies.

Each year, a blue-ribbon panel of leaders selected from a cross-section of Boston's business, philanthropic, and education sectors dives deep into the stories of these rapidly improving schools and selects one winner and two finalists.

The 2020 School on the Move Prize Ceremony will take place on **Wednesday, October 28th**. Generally, 300 guests attend the Ceremony each year in person to share a deep commitment. In this time during COVID-19, we are planning to host the event virtually and look forward to drawing a larger audience.

Sponsorship of the School on the Move Prize Ceremony offers an inside look at education and an opportunity to hear from Boston's leading minds in school improvement. Investment in EdVestors' School on the Move Prize is an investment in the next generation of Boston's leadership and workforce.

Please join us in being a part of what **is** working in the Boston Public Schools.

"Today is about celebrating the teachers, school staff, and school leaders who show up and put in hard work day after day to make a difference in the lives of Boston's young people. Today we lift up the promise of public education and the often overlooked, unsung heroes of the city's public schools."

- Klare Shaw
